Special Issue: “Supply Chain Management”

*Research in Electronic Commerce Frontiers* deals with papers related with aspects of electronic commerce. This special issue puts emphasis up on design, planning, execution, control, and monitoring of supply chain activities with the objective of creating net value, building a competitive infrastructure, leveraging worldwide logistics, synchronizing supply with demand and measuring performance globally.

You are encouraged to contribute to the special issue by submitting your latest research and review papers in the field of supply chain management.

Papers must be original contributions, not previously published or submitted to other journals. Papers published or submitted for publication in conference proceedings may be considered provided that they are extended and improved.

Perspective authors can submit their manuscripts online by [clicking here](#).

Submission Deadline: May 15, 2014
Tentative Publication Date: July 15, 2014
